Ross PLATT figures the New York Republican plurality at \$55,000.

MATT QUAY says McKinley is elected with 270 electoral votes.

The Republican managers feel sure of the election of a sound-money Congress.

AMBASSADOR BAYARD advises all Democrats to vote for Palmer and Buckner. Next!

The old Democratic Macon Telegraph has been sold and will be made a Republican organ.

A. R. TALBOTT, of Lincoln, Neb., Wm. J. Bryan's law partner, has declared his intention to vote for McKinley.

CARLISLE will come to Kentucky the latter part of this week and commence his speech-making tour next week.

THE Silver Rule, in contradistinction to the Golden Rule, is: "Do to the fellow, do to my huckleberry."

"We want a cheaper dollar," say the silverites. If nothing else was affected, what good would it do to enact a law making 50 cents a dollar?

CHICAGO on Oct. 9th observed her 31st anniversary since the big fire by an honest-money parade of 100,000 men. The news made the Popocratic managers sick.

THE sound-money news is too good to be kept secret. Everything is coming sound-money-ward at a pleasing rate. Get on the Palmer & Buckner band-wagon!

HEITZ GREEN'S son is taking all 3 to 1 bets offered that Bryan will carry Texas. He is the State Republican chairman and thinks Texas safe for McKinley.

THE hair of the silver dog is not good for its bite. The silver agitation caused times to get to their present state, but free coinage will not bring good times.

"LITTLE need have we for history and statistics and the studies of scholars."—Arthur Sewall.
That garbling tells a truth, but he didn't mean it that way.

BYRAN was asked and couldn't explain how the people could get 50-cent dollars any easier from the Silver Trust than they can get 100-cent gold dollars from Wall street now.

As Disraeli said of Gladstone: Bryan is a sophisticated rhetorician imbued with the exuberance of his own verbosity. He will have every inducement to sober up after Nov. 8.

THE sound-money Democrats are going to support Col. J. C. Hendrix, Republican, to try to defeat Col. L. F. Livingston for Congress in the Atlanta (Ga.) district. Livingston is an extreme silverite.

"We want more money," say the silverites. The enactment of a free and unlimited silver coinage law will instantly strike down or drive out of circulation two out of every three dollars in this nation.

WHEAT went up to 73 cents per bushel Monday, and still tends upward. Silver is not advancing, but is rather on the decline. Coin's Financial School is being discarded as a text-book worse than ever.

EVAN SETTLE, of Owen County, won the Popocratic Congressional nomination in the recalled 7th (Lexington) district convention at Frankfort last Friday. He is about the strongest man, but Breckinridge will tend to him effectually.

It last week's registrations in Kentucky towns and cities are to be taken as an indication McKinley will surely carry Kentucky. Notwithstanding the National Democratic generally registered as plain Democrats along with the Popocrats, the Republicans made very large gains in nearly all instances. Louisville showed a Republican plurality for the first time.

SOUND MONEY sentiment is increasing rapidly in this county. The encouragement received Monday is certainly gratifying. It was learned from nearly every neighborhood that parties who had heretofore advocated the free silver doctrine had, upon cool reflection, seen the mighty danger in it and had come over to the side of national safety and ultimate lasting prosperity.

THE serene newspaper man in the present crash of political matters is Bro. Leving W. Gaines, of the Elkton Semi-weekly Progress. He goes ahead getting out special editions of 12 to 16 pages every few weeks, and makes a good profit out of them, judging from the large quantity of ads. He is one of Fortune's favorites among the tolling newspaper boys of the country press, and we are glad to see him prosper.

THE Chicago Tribune by pictures, iteration and reiteration tells a this-is-the-house-that-Jack-built story, winding up thus:

"Tuesday, Nov. 3: This is the day, so frosty and cold, when our lean old uncle, so hardy and bold, will make all his dollars as good as the gold, because of the votes that will back up the Bill that will step on the Bill that called for the Bill to banish the gold that lay in the country the Americans built."

JOSEPH PATTERSON is the regular Democratic nominee for Congress from the Memphis (Tenn.) district. E. W. Carmack is the bolting silverite candidate against him. When Bryan was in Memphis he urged the silverites to vote against Patterson. Bryan's action so incensed the Memphis silverites that it declares outright for McKinley and urges sound-money Democrats to do the same. The Semitar is the only afternoon daily in that city and has a large circulation.

SENATOR ALLEN, the never-tiring speech-maker that in the U. S. Senate set Bryan the pattern he has followed in this campaign, used to be a genuine Populist, but he is now persona non grata to the middle of the road Populists of the Evansville, Ind., district. He is now more Popocrat than Populist, and was sent to make a speech at Evansville. The middle-of-the-roadsers sent word they didn't want him. He went anyhow and found a frost. He caved and caved under Popocratic auspices, talking Bryan and roasting the middleers, and made plenty of votes against Bryan.

HERE are the names of the Democratic big men who are stumping or will stump Kentucky for Palmer and Buckner. Isn't the list a great one?

Secretary Carlisle, Senator Lind, say John M. Atherton, Col. W. C. Breckinridge, Col. T. W. Bullitt, W. W. Dickerson, Helm Bruce, R. T. Tyler, P. L. Atherton, Boyd Winchester, E. J. McDermott, J. Q. Ward, E. H. Hilbott, Gov. J. R. Hindman, Judge Yost, W. F. Brown, C. W. Millikin, H. C. Baker, Gen. Basil Duke, and a large number of other Kentuckians, besides Irish, of California, and Fellows, of New York.

THE National Democrats of the 7th district nominated Col. W. C. Breckinridge for Congress. He will have the undivided support of the Republicans also. The Lexington Leader, edited by Samuel J. Roberts, the Chairman of the Republican State Campaign Committee, says: "Believing that the financial honor of the country rises above party lines, and that he serves his party best who serves his country best, The Leader does not hesitate to declare for Col. Breckinridge in this crisis and to urge the Republican of the Seventh district to unite with the sound-money Democrats in his support."

THIS money issue must result in either retaining the gold standard or establishing the silver standard. It is one of the natural impossibilities to maintain a double gold and silver standard. If Bryanism wins gold will cease to be the money in this nation, for Bryanism prohibits gold contracts. Bryanism is also committed against selling bonds for gold or silver with which to redeem greenbacks and other Federal notes. What is to keep the paper currency up to a party with silver? There is nothing to prevent paper from depreciating with what there is outstanding now, and more issues of paper notes will necessarily follow. The more paper currency there is issued, the lower it will fall relative to silver. Silver will go out of circulation, and we shall have only a fluctuating paper currency. That is one of the things you are really voting

for when you vote for Bryan and for Thomas. Do you really want a sole paper currency that will be similar to Confederate scrip during the Civil war? It is true, ours would be more valuable than the Confederate scrip until there comes a threat of foreign or domestic war; but in either of the latter events it would depreciate so as to be almost a nuisance instead of a help in commerce and trade.

THE Louisville Evening Post suggests the following table as the probable result of the vote in the electoral college:

Ingersoll on Silver.

Chicago, Oct. 8.—Col. Robert G. Ingersoll addressed a large mass-meeting in this city to-night in support of McKinley. He said:

A piece of gold coined in the Roman 2,500 years ago is just as good to-day as though Julius Caesar rode at the head of the legions. Since that time darkness has fallen over the Roman empire and the empire has passed into oblivion, but the gold coined then shines as brightly now as in Rome's palmiest days. That is good money. But when you issue a bill or a note you want some good money behind it. Money that is money needs no guarantee; needs no banker; it is always good, no matter how many nations go down to dust; good money remains forever the same. We have a man running for the presidency on three platforms, with two Vice Presidents, that say money is the creature of law. If the Government can make money by law, why then should the Government collect taxes?

According to Mr. Bryan, our fathers were the friends of silver. And yet our dear old fathers in all their lives only minted 8,000,000 of these sacred dollars. Now, see what the enemies of silver have done. Since 1873 the enemies of silver have coined over 430,000,000 of these dollars, and yet silver kept going down. We are coining now over two million a month, and silver keeps going down. Senator Jones, of Nevada, in 1873 voted for the law of 1873. He said, from his place in the Senate, that God had made gold the standard. He said that gold was the mother of civilization. Whether he has heard from God since or not I do not know. But now he is on the other side. Senator Stewart, of Nevada, was there at the time. He voted for the act of 1873 and said that he had changed his mind. He has changed his mind.

So they have said of me that I used to talk another way. Let me tell you how I have stood on this question. Twenty years ago, at Cooper Union, in New York city, in 1876, I made a speech upon this subject among others, and I want to tell you what I said at that time and you will see how much I have changed. Here is what I said: "I am in favor of honest money. I am in favor of gold and silver. I am in favor of paper with gold and silver behind it. I believe in silver because it is one of the great American products, and I am in favor of

anything that will add to the value of an American product, but I want a silver dollar worth a gold dollar, even if you have to make it four feet in diameter."

You would say my head was level, then. No Government can afford to be a clipper of coins. A great republic can not afford to stamp a lie on silver or gold or paper. Honest money for an honest people is issued by an honest man. You can not make a paper dollar without taking a dollar's worth of paper. We must have paper that represents money. I want it issued by my Government and I want behind every one of these paper dollars either a dollar in gold or a silver dollar worth 100 cents, so that every greenback under the flag can lift up its hands and swear, "I know that my redeemer liveth." That was where I was twenty years ago, and that is where I am tonight. For nations and individuals at all times, everywhere and forever, honesty is the best policy. Better be an honest bankrupt than a rich thief. Poverty can hold in its hand the jewel, honor—a jewel that outshines all other gems. A thousand times better be poor and noble than rich and fraudulent.

Nobody can be helped by free coinage except the few people who could pay their debts if they were willing. Some say that it would help the mine owners. It would not. Coining this billion into dollars would not increase its value, because you could coin the bullion of the whole world and the supply would be greater than the demand. Have free coinage to-morrow; there is not a silver mine owner that would make a dollar, not one, by changing it into American coin. It would only be worth what the bullion is worth in the open market. We want good money, good honest money, and there was never any real prosperity for a nation or an individual without honesty, without integrity, and it is our duty to preserve the reputation of the great republic.
